QuicDoc® Professional Edition Client Server-based Software
System Requirements

QuicDoc Professional Edition Client Server-based software is supported on both the 32-bit and 64-bit versions of Windows operating systems for Workstations and 64-bit versions of Windows operating systems for the Server.

QuicDoc Professional Edition Client Server-based software uses Microsoft SQL Express for the database backend. SQL Server is installed automatically as part of our product installation. The application will alternatively support the use of Microsoft SQL Server 2012, 2014 and later.

QuicDoc Professional Edition Client Server-based software requires Microsoft .NET Framework 2.0, 3.5 and Microsoft .NET Framework 4.7.2 installed.

	Server	Workstation
Minimum processor speed	1.6 GHz (minimum) 3 GHz or faster (recommended) 64 bit required	1.0 GHz (minimum) 2 GHz or faster (recommended) an Intel or AMD x86 or x64 based CPU is required Note: the ARM based processor (e.g. Windows Surface) is not supported
Available RAM	4 GB (minimum) 8 GB (recommended)	2 GB (minimum) 4 GB (recommended)
Available hard drive space	10 GB (minimum) 20 GB or more (recommended)*	2 GB (minimum)
Minimum video resolution	SVGA (1024x768) or higher-resolution video adapter and monitor. 1280x1024 or higher recommended	SVGA (1024x768) or higher-resolution video adapter and monitor. 1280x1024 or higher recommended
